SENATOR GORE DECLARES PRESIDENT WILSON IS INCLINED TO FAVOR WAR

Greatest Sensation of Recent Years When Author of Warning Resolution Prefers Charges--Great Service to Humanity to End Carnage by Entering.

Special to The Democrat-Forum.

Washington, March 2.—The most profound sensation of the war was created in Washington today when Senator Thomas P. Gore of Oklahoma declared on the floor of the senate that he had learned from the highest authority that Wilson had said the following:

"For the United States to enter the war might not be a bad thing, since this country would bring the war to a close by the middle of the summer. In this way America would be performing a great service to humanity."

The remark was occasioned by Senator Stone, who made a lengthy discussion of recent events.

Stone Starts Submarine Discussion.

Washington, March 2.—The submarine situation was injected into congress today, despite the agreement of members not to discuss it on the floor and to refrain from action. Senator Stone, chairman of the foreign relations committee of the senate, was responsible.

Soon after the morning business had been transacted, Stone secured recognition and began a discussion of the subject. He took the Gore resolution as his text, although this was not then before the senate, the Shields dam bill being the order of the day.

The senator launched into a lengthy discussion of the entire submarine question. He read his letter to President Wilson and the executive's reply which had precipitated the entire controversy.

Stone urged a unanimous agreement for the bringing of the Gore resolution before the senate at noon tomorrow. This resolution warns Americans to stay off of armed belligerent vessels.

ALL KIME PROPERTY GONE

Neighbors Unable to Save Furniture—Small Amount of Insurance on Household Goods.

The fire which completely destroyed the house occupied by Samuel Kime yesterday afternoon also destroyed all of the household furniture and clothing.

The origin of the fire is unknown, but presumably started from a defective flue in the sitting room. The alarm was turned in from the residence of J. T. Busby, a near neighbor.

Mr. Kime, who was in twon when the alarm was sent in, arrived home just as the building collapsed. Neighbors did all that they could to save the house and furniture. Mr. and Mrs. Kime and the children went to the Busby home for the night and will remain there several days. A small insurance was carried on the furniture.

NOT A SOUVENIR STAND.

But Several Pennants Disappeared From Yeomen Booth.

A large crowd attended the Yeomen carnival last night, and all had a good time. The only thing that marred the complete success of the evening was the fact that several evidently mistook the pennant display of the Alderman-Yehle store for a souvenir stand and helped themselves to a number of pennants.

Roy Martin Out for Council.

Roy Martin is the first of the candidates for alderman to get into the field. He announces himself today as desiring to represent the fourth ward in the city council. Four new councilmen are to be elected at the coming city election.

Mrs. L. E. Dean and daughter and sister, Mrs. Frank Welch of Shenandoah, Ia., will leave in the morning for Mound City, where they will visit Mr. and Mrs. John Steele.

SOMEWHAT A SNAKE STORY

And Although Hopkins is Dry Town, Editor Makes Strange Comment About George Ulmer, Jr.

George Ulmer, Jr., now has a pronounced case of South America fever and unless something can be done to reduce his temperature, he will go to that country soon to engage in cattle raising, the northern part of the country offering inducements that are hard to pass up by a young man full of vigor and with a reasonable amount of ready capital to invest.

Good grazing lands can be bought there as low as a dollar an acre and the climate is fine. George had thought of going to the western slope of South America but when he learned of the numerous snakes there, he soon gave that idea up.

A traveling man who recently returned from the slope just mentioned, says he never saw as many big ugly reptiles, one in particular striking terror to him, a big poisonous snake fully fifteen feet long and twelve inches around. The snakes were so thick that he saw seven other large ones crawling over this one, the mountain side being literally alive with the reptiles. There are many snakes throughout the whole of that country, but the reptiles are especially numerous on the western slope.

In the Journal's opinion, if George really wants snakes in his boots he can acquire them cheaper at home than going to South America to get them.—Hopkins Journal.

TO RE-TRY GAMBLER WADE

Supreme Court Holds Informations Faulty in Case of St. Joseph Politician.

Jefferson City, March 2.—By a vote of five to two the supreme court reversed and remanded the case of the state against Dick Wade, tried, convicted and sentenced to the penitentiary for four years in St. Joseph on the charge of operating an underground gambling den.

Judges Woodson, Revelle, Blair, Faris and Graves voted to reverse and remand, and Judges Walker and Bond to affirm. The opinion was written by Judge Revelle. The chief point of attack on the conviction is based upon a faulty information.

Judge Revelle says that the allegations in the indictment are more in the nature of a conclusion than a statement of fact, and do not follow the statutes.

"The information charges," says Judge Revelle, "that the defendant set up and kept a certain table and gambling device commonly called a 'craps table.' There is no allegation defining a 'craps table,' or of what it consists or how designed; or how and by what means the game of craps is played. In short, there is no allegation bringing it within the class of the enumerated devices given in the statutes.

W.J.C. BOYS COMING

GLEE CLUB, ORCHESTRA, QUARTET AND SPECIALTY NUMBERS.

BAPTIST CHURCH MAR. 29

Group Will Be on Ten Days Trip After Exams—Under Auspices of the B. Y. P. U.

The Baptist Young People's Union of the First Baptist church will bring the Glee club of William Jewell college to Maryville, Wednesday night, March 29. A ten-piece orchestra, quartets and readers will vary the program.

The Glee club consists of twenty men, all of whom have had glee club experience. The club made a ten days' trip before Christmas which was very successful. In the club is an orchestra of ten pieces, two quartets, one of them a ragtime quartet, a violin soloist, a reader, an impersonator, two "Dutch comedians," five vocal soloists, two or three of whom will be used on each program, in regular order. This club is by far the strongest that the college has ever turned out, and from everywhere comes the loudest praise of the organization.

The club will be on a ten days trip following their term examinations. They will appear at Trenton Monday night and Stanberry Tuesday.

The orchestra, under the direction of Mr. Reed, is one of the strongest that we have ever had here. It is well balanced, and has been a very popular part of the program wherever the club has gone. In the orchestra are ten pieces, two violins, clarinet, flute and piccolo, cornet, trombone, cello (baritone), bass, drums, piano. This is the first time for over four years that an orchestra has been added to the Glee club.

The quartet, composed of Messrs. Ehrman, Francis, Cline and Chase, make up a body of more than ordinary ability. Every member has had concert experience, having done professional work in that line. The Glee club is indeed fortunate to have the services of these men.

Mr. Reed, Violinist and Reader.

Mr. Reed has had much experience on the concert stage, and is very popular with his audiences. He has been one of the leading features of the Glee club for the last two years, and this year is better than ever. He is one of the most versatile artists on the club.

"Heine" Hoffman and "Dutch" Dieterle make up the funny Dutch pair. Both of them are Germans, and their natural wit convulsions the audience with laughter. They were very popular with the people on the last trip of the Glee club.

Mr. Pfeiffer has just entered school since Christmas, but he was with the club in its trip just before the holidays. He has been called "The wonder boy pianist of Kansas City."

This is Mr. Sykes' first year with the club and he has more than proven his value. His imitations of Charlie Chaplin, the Jew, the bally Englishman, the Mexican seeking revenge, and others, carry his audiences irresistibly before him. Mr. Sykes made a great success with his impersonations in California, and his services to the Glee club this year are greatly appreciated.

RESUME OF RECITAL

EXPLANATION OF PROGRAM NUMBERS BY FACULTY.

CREDIT TO ANY SCHOOL

Free Concert by Conservatory Teachers Tonight at First Methodist Church at 8 o'Clock.

Musicians of Maryville who know say that the program to be given tonight by the faculty of the Maryville Conservatory of Music would be a credit to any institution. The concert will be free to all at the First M. E. Church. At the invitation of the Democrat-Forum, the faculty has prepared the following resume of the numbers to be given:

The first number, Piano Duo, written by Arensky, one of the leading composers of the modern Russian school, will be played by Geneva Wilfley and Eleanor Smith. The piece carries the melody first on one piano and then on the second, bringing out the accompaniment in a beautiful network of arpeggi and chord formation.

The second number, second and last movements of Beethovens Sonata Opus 57, known as the appassionata, is considered by many to be the most beautiful of his thirty-two sonatas. Certainly it is one of the most inspired of this great master's works and the melody and harmony bring out the different moods of a master mind. It will be played by Miss Airy.

The songs of Miss Garrett's two groups include some of the best examples of modern English and American song composers. Lohr's "Where My Caravan Has Rested," has been one of the most popular program songs of this writer of "Little Grey Home in the West."

The next number, Automne, by Chaminade is a brilliant example of musical lights and shadows as written by one of the most popular writers of France. Chaminade, by the way, is possibly the best known woman composer in the world today. This number is played by Miss Smith.

The organ solo by Mr. Landon will be an arrangement for the organ of the celebrated Prelude to the opera Lohengrin by Richard Wagner. This opera was written by Wagner before he conceived the idea of his great music dramas, yet it bears the prophesy or his, at that time, revolutionary ideas in harmonic progression.

Miss Porter's solo, Staccatto Caprice by Max Vogrich, is an example of dainty, light brilliant staccatto right hand playing. Vogrich was born in South Africa and educated in England and Germany. He is now living in New York where he devotes most of his time to composition.

The last number on the program, Liszt's "Legend of St. Francis Walking on the Waves," one of the most difficult and beautiful of this great Hungarian writer's compositions, will be played by Miss Rice. The piece was inspired by a painting of Monsieur Steinle which pictures St. Francis walking on the waves of the Messine. It is a masterpiece of descriptive writing by this composer who was original and brave enough to write descriptively when it was condemned by his contemporaries as a mark of mediocrity. This style of writing is now used by the most successful of the modern writers, especially of France. Thus many consider Liszt as the pioneer of the, so-called, ultra modern schools.

LICHTENBERGER TO REFEREE

"ERA OF GOOD FEELING" FOR PATTONSBURG GAME.

Officials Satisfactory to Both Schools —Mound City Papers Accept Challenge.

All seems most hopeful for an "era of good feeling" for the last game of the season, for Lichtenberger of St. Joseph will be the referee. His name was submitted to Superintendent W. M. Westbrook by the Pattonsburg authorities and accepted. The visiting team will come without several leading players who are ill, they say in their letter.

The umpire will be Fred Lake, a former football star at the University of Missouri. A large number of rooters are expected to accompany the Pattonsburg team. The last game on the regular schedule will be played at St. Joseph next week with Benton high school.

Superintendent Westbrook has stated that he is much opposed to any post-season games. This will probably make any talk of tournament be given up, although Mound City "accepts" Maryville's informal challenge from players issued through the newspapers. The Mound City Jeffersonian says the following about the challenge in their last issue:

"Upon inquiry of our high school authorities and captain of our basket ball team, we are informed that no challenge as mentioned has yet been received, and that they know nothing of it except as mentioned in the newspaper article.

However, we are authorized by the proper authorities to state that upon receipt of such a challenge coming from the proper authorities of the Maryville high school, the same will be promptly accepted."

"HOME TIES" PLEASING PLAY

Orchestra, Soloists and Clown Dances Between Acts of Eurekan Annual Event at the Normal.

"Home Ties," the play given in the auditorium of the State Normal by the Eurekan Literary society last night, was a great success from the viewpoint of audience and acting. The play differed from the usual home talent plays, as it had a real plot, from the city guy to the country lad and lassie and romance and marriage.

Between the first and second acts Maurice Fitzgerald sang a solo. Following act 2 a clown dance by six young ladies was very clever. Those in this dance were: Misses Lola Wright, Vijune Colden, Retha and Lavina Robertson, Leile Levy and Merle Scarborough.

The State Normal orchestra played several selections between the third and last act. Everyone taking part in the play deserves special mention. The cast was:

Martin Winn, with memories of past—L. L. Livengood.

Leonard Everett, son of the soil, Verne Pickens.

Harold Vincent, from New York—Charles McReynolds.

Josiah Tizzard, umbrella mender—Joe Farmer.

Ruth Winn, Martin's daughter—Mary Wallace.

Alma Wayne, her friend from city—Gladys Meadows.

Aunt Melissa, Martin's sister—Matie Evans.

Mrs. Poplin, a widow with pension and symptoms—Lillie Hall.

Tile drainage—will it pay you?

Every good farmer knows that tile drainage restores wet land. But quite a number of farmers have proved that it also benefits land that's dry and hard. They say it brings larger yields—yields that are uniform from year to year.

It pays others. But will it pay on your farm? What's the theory? Does it work?

Can you tell beforehand approximately what underdraining will cost? Is it a sound investment or is it a gamble?

These are some of the things you want to know before you sink money in the ground—and they're some of the things told you by a man who knows what he's talking about, in *Drains to Fight Wetness and Drought,* today in

The COUNTRY GENTLEMAN

Also in this issue:

Fresh Air for Farm Animals
Sanitation is the keynote of modern farm-building construction, and fresh air is the keynote of sanitation. This is an article for the farmer who believes in helping his livestock to keep healthy. It tells how to plan a ventilating system.

The Lure of the Land
It's high time somebody warned back-to-the-landers that there are unscrupulous land dealers; that farming is not a romance, but a business; that a business farmer doesn't put all his capital into land, and doesn't overequip. The Country Gentleman says this and more.

Electric Lights from Water Power
The "water power" is a stream six inches wide, that fills a six-inch pipe only three inches deep at low water. But he hitched it up to a dynamo and it does the trick. He tells how, and gives costs.

A Page of Spring Fashions
A page for the farm mother—the home dressmaker. A number of attractive, simple patterns illustrated and described.

A Cheap Water System
A modification of the farm home water system worked out by the Government. It can be made and installed for from ten to twenty-five dollars.

THEY WANT STOCK SOWS NOW

M. G. Daken Says Many Farmers Sold All Hogs and Then Price Went Up.

"Early in the summer all of the stockmen were sick of hog raising and were going to quit the business," said M. G. Daken a prosperous stockman operating near Arkoe, Mo., who was in today with a load of hogs of his own raising. "Many farmers sold their sows and their pigs together before they were fattened and lost money thereby.

Now the hog market has gone up and every one is wanting stock sows to raise pigs for next spring, but very few are obtainable, and those that can be bought are selling at greatly advanced prices. There are about half the usual number of brood sows in the country and the prospect is for a light crop of pigs next spring."—St. Joseph Stock Yards Journal.

ACTION OF SINGLE SPOONFUL SURPRISES MANY.

Maryville people who bought the simple mixture of buckthorn bark, glycerine, etc., known as Adler-i-ka, are surprised at the instant effect of a single spoonful. This remedy is so complete a bowel cleanser that it is used successfully in appendicitis. Adler-i-ka acts on both upper and lower bowel and one spoonful relieves almost any case of constipation, sour or gassy stomach. One minute after you take it the gasses rumble and pass out.
